

# EXPLORATORY TEST REPORT

Name and Surname of the tester:  
Mikołaj Łykowski

Document version:  
1.00

Creation date:  
10.01.2024

Name of the application + link: Dare Drop <https://dev.ddtest.link/>

Environment:  
Google Chrome Version 120.0.6099.200

System:  
Windows 11 Home 22H2

Session duration: 45 minutes

Defect reporting time: 25 minutes

Purpose of testing: exploratory testing of the Dare Droop application.

Areas tested during the session:

1. Changing the language.
2. Editing the banner.
3. Editing social media links.

Tester's comment: The app works, although the basic function of changing the language of the website is missing. Moreover, the app needs to polish the functions that the user interacts with on a daily basis.
